

# EYFS EXPLORER TRAIL

Team name: \_\_\_\_\_

School: \_\_\_\_\_

# Welcome

Use this spotter sheet as you explore the aquarium today and meet our wonderful animal friends! The pack is split into the four zones of the aquarium: Plymouth Sound, British Coasts, Atlantic Ocean and Blue Planet

If you need any help around the aquarium today, please ask one of our lovely Rangers. They are very happy to talk to you about any of the animals and answer any questions! The Rangers are wearing navy blue t-shirts or fleeces.

# British Coasts

## Plymouth Sound

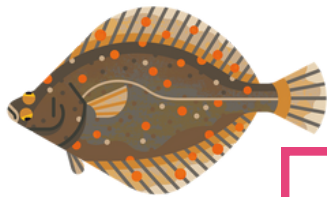

Can you find these animals?

Brown Crab

Blue Lobster

Plaice

Anemone

Can you wiggle your arms like an anemone's tentacles?

Did you know?

Crabs and lobsters grow new shells as they grow, and leave their old ones behind!

# Eddystone

Skate

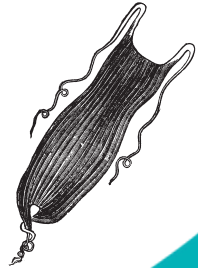

Conger Eel

**Did you know?**

Stingrays have long, thin tails with stingers and give birth to live young. Skates have thicker tails with fins and lay eggs in cases.

**Do you see any egg cases in this tank? If so how many?**

# Atlantic Ocean

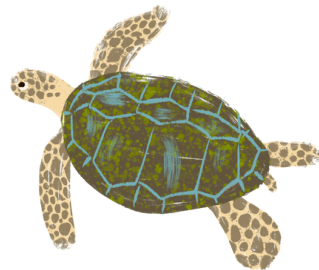

How many different **SHARKS** can you count?

How many different **RAYS** can you count?

What else can you see in the tank?

**Did you know?**

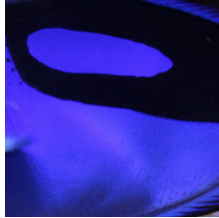

Our nurse sharks like to cuddle at the bottom of the tank and have a nap—can you see them sleeping under the plane?

# Blue Planet

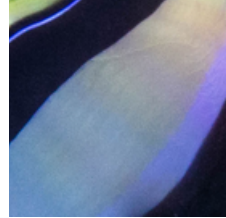

Can you find these patterns?

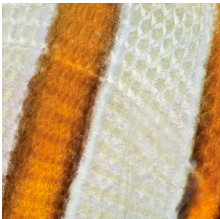

-----

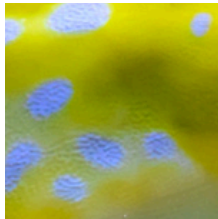

-----

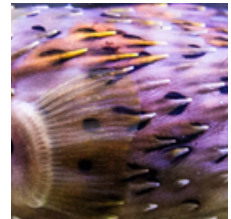

-----

-----

-----

-----

Did you know?

Clownfish live in colorful homes called anemones, which protect them from predators.

# Great Barrier Reef

Can you find these fish in the tank?

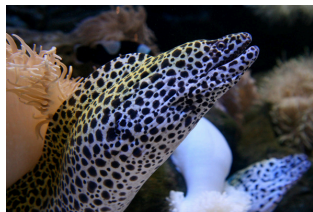

Humphead  
Wrasse

Puffer Fish

Unicorn Fish

Honeycombe  
Moray Eel

Did you know?

Pufferfish blow up like a big balloon when they feel scared or threatened! This helps them stay safe from predators.
